Try this, thanks!

To include the American Collectors Insurance Quote Wizard Link, please follow the instructions below.

-----

1.

Copy and paste the following HTML code into the appropriate spot in the page you wish to contain the link.

```
<A HREF = 'https://quote.americancollectors.com/consumer.asp?producer=1234567'><IMG SRC =  
'aciquotelink.jpg' ALT = 'American Collectors Insurance Quote Wizard' HEIGHT = '216' WIDTH = '268'></A>
```

2.

Change the text 1234567 to your Producer Number and save the page into the same location.

3.

For simplicity, save the 'aciquotelink.jpg' image in the same directory as the page that uses the image link. If you wish to save the image in another location, the path information in that reads " SRC = 'aciquotelink.jpg' " will need to be changed to reflect the correct path to the image.

4.

View the changes in the browser of your choice to assure correctness. You may wish to alter the height and width attributes of the image to better fit your page.

5.

That's it!

Michael,

I could not open the instructions you attached.

Rick Demere'
